

10<sup>th</sup> July 2024

To Whom It May Concern:

We would like to inform you that SteriTouch is now a part of Addmaster. Addmaster and its brands, notably Biomaster, has significant value and recognition in the marketplace. This has led us to strategically reinforce Addmaster as a market leader in antimicrobial technology and other innovative additives that provide solutions for industry.

We believe this move not only solidifies our identity but also strengthens our connection with our valued customers.

This means that SteriTouch branding will now be presented as Biomaster. Addmaster has a marketing support team to ensure that your brand is handled in a professional manner no matter where in the world you are based or operate.

In terms of how we work together, you should now use the Biomaster logo on any co-branding. Please note, the Steritouch website is no longer active and will redirect to the Addmaster website.

Amidst this positive change, the exceptional quality of our products, services, and customer support will remain unchanged. Our team will ensure that your experience with us will continue to be exceptional.

Your ongoing support means the world to us, and we eagerly look forward to continuing our journey with you under the Addmaster brand. Thank you for being an integral part of our valued customer community.

I trust you will feel the benefits from the incorporation and choose to work with our Business Development team to find the best solution as partners in the future.

Yours sincerely,

Lesley Taylor  
General Manager  
Addmaster (UK) LTD
